

Astronomy 1020: Astronomy II Lab Schedule — Spring 2020

Week	Notes	Location
January 21-23		Brown Hall 264
January 28-30		Brown Hall 264
February 4-6		Observatory
February 11-13		Planetarium
February 18-20		Observatory
February 25-27		Brown Hall 264
March 3-5		Observatory
March 10-12		Brown Hall 264
March 17-19	No Laboratory Spring Break	
March 24-26		Brown Hall 264
March 31-April 2		Brown Hall 264
April 7-9		Planetarium
April 14-16		Brown Hall 264
April 21-23	NO LABS	
April 28-30	NO LABS	

The Astronomy Laboratory Schedule above is **SUBJECT TO CHANGE**. Please note that the labs meets in different locations on different weeks, either in Brown Hall 264, the Observatory, or the Planetarium (see map in Lab Manual). While at the observatory, if it is clear we will do the outdoor lab. If it is cloudy, an indoor lab will be performed instead. There will be a total of 12 meeting times throughout the semester. For full credit, 10 labs must be done during the semester. The last two labs are general make-ups for the class, or extra credit. **There will be no individual make-ups. At least 8 labs must be done to pass the course. DRESS WARMLY** for outdoor labs! **Labs are due at the end of lab period.**
