

Friday Night Serenade

It's Friday night, and I'm feeling all right;
Been working hard all week, and now I'm
Gonna pick up my girl and head for those city lights.
I've had my back to the grind too long;
The time is right for a party and a song.
It's a beautiful noise when the city comes alive at night.

Let's go listen to the Friday night serenade.
The music's hot and it's free.
It's time for the Friday night serenade.
Tonight it's playing for you and me.

We can check out a movie; we can hit an arcade.
Anything you want 'cause I just got paid.
Darlin', we can go dancing right up until the break of day.
Everybody's on the drag cruising up and down.
This is our night, we've got the run of this town,
Gotta good time coming, and nothing's getting in our way.

Let's go listen to the Friday night serenade.
The music's hot and it's free.
It's time for the Friday night serenade.
Tonight it's playing for you and me.

So come on, girls and boys,
Let's make some noise;
That's what the weekend's for.
It's for the dance,
It's for romance,
So use your best moves, and you're sure to score.

Let's go listen to the Friday night serenade.
The music's hot and it's free.
It's time for the Friday night serenade.
Tonight it's playing for you and me.
