Science Fair Parking/Event Details

The Science Fair is being held in the newly renovated D.P. Culp Center. Access to the Ballroom by the external South Side ramp remains the preferred entryway but 2 new large elevators on the North side of the building allow for easy access from the ground or first floor levels.

- Vehicles (both buses and cars) can unload students with exhibits from 7:55 – 9:30 AM on J.L. Seehorn Road near the Culp Center Ballroom Ramp. [This space is very limited and for immediate unloading/loading only!] You may enter the Culp Center Ballroom by going up to the top of the ramp or by doors in the interior if entering the building on ground level from the north side. NOTE: Check-in for students will be located just inside the ramp doors. (Volunteers will be available to direct students to designated tables for setting up their projects.)
- **PARKING:** No Parking Permits are required on weekends. Parents and Teachers may park in any student or faculty lot, but must still obey regulations for handicap, fire, emergency lanes, etc.
  A map of campus parking lots is located at the link below:
  https://www.etsu.edu/ehome/documents/etsu-map.pdf
- Buses needing to park after unloading should go to Lot 14 (on Southwest Ave.) or Lot 22 (west end of campus across from athletic fields).
- Projects are to be set no later than **9:30 A.M., earlier if possible.** Early set up would be appreciated because the safety committee will review each project before it is judged. The Culp Center Ballroom will be open for project set up as early as 7:55 AM.
- **PLEASE chaperone your students while they are outside the project display area and remind them to walk not run through the building.**

The awards program will begin at ~2:00 pm or shortly thereafter and will take place in the Ballroom. Our goal is to complete the awards program by 3:15 pm. All project displays are to be taken down immediately following the awards program and removed no later than 5:00 pm. Projects remaining after that time will be discarded by janitorial staff.
