Student's name \_\_\_\_\_

School \_\_\_\_\_ School Phone: \_\_\_\_\_

Title of project \_\_\_\_\_

**Student's statement:** Briefly describe your project, with special attention to how **human subjects** will be used. Describe how you will get "informed consent" from subjects.

**Student's signature** \_\_\_\_\_ **Date** \_\_\_\_\_

**Teacher's statement:** I carefully reviewed this research project with my student before the research was conducted, and am satisfied that the project is substantially free of risk, either medical or psychological, for **human subjects** who participate.

**Teacher's signature** \_\_\_\_\_ **Date** \_\_\_\_\_

**Teacher's name** (printed) \_\_\_\_\_

**Professional statement:** (Physician/nurse practitioner/clinical nurse specialist for biomedical projects; psychiatrist/psychologist/school counselor for behavioral studies and surveys) I discussed the project with this student before the research was conducted, with special attention to potential risk to **human subjects** who participate. I am satisfied that this project -- as described to me -- presents no significant risk for **human subjects**, or that appropriate precautions have been incorporated into the project to eliminate potential risk.
