

Richard ("Rico") Ignace is an astrophysicist who received a Doctorate in Astronomy and a Masters in Physics from the University of Wisconsin. Rico was a Researcher at the University of Glasgow working under the Astronomer Royal for Scotland, a Visiting Assistant Professor at the University of Iowa, and then an Assistant Scientist at the University of Wisconsin before arriving at ETSU in 2003, where he is an Associate Professor in the Department of Physics & Astronomy. His research involves both theoretical modeling and observational studies, using primarily NASA's orbiting telescopes. He recently authored a textbook entitled "Astro4U: An Introduction to the Science of the Cosmos", and is heavily involved with supervising undergraduates in astrophysical research.
