

Linda Lewis currently serves as the Director of Operations Support Services and Global Quality for Eastman Chemical Company. During her 32 year career with Eastman, Linda has served in a variety of positions in manufacturing, business management, and regulatory compliance areas. Her experience includes serving as Vice President of Sustainability; Director of Corporate Health, Safety and Security; Director of Acetyls & Intermediates Business Unit, and Superintendent of two of the major manufacturing divisions at Eastmans Kingsport plant site. A native of Childersburg, Alabama, Linda received her B.S. in Chemical Engineering from the University of Alabama and completed the Advanced Management Program at Harvard Business School in October of 2001. She has been active in a number of community organizations and recently served as Chair for the 2012 Eastman United Way Campaign.
