Why tutoring?

Tutoring can help you learn about a subject in new ways and from different perspectives. We have more than 60 well-trained tutors who are committed to helping students succeed in their courses. We offer tutoring by-appointment, either face-to-face or online, to assist students in reaching their learning goals.

What subjects do you tutor?

Whether you are writing a paper, working on math problems, or studying for a chemistry exam, we have the resources to help! We offer help with writing, math, science, communication, and general education courses, as well as several high-demand upper-level courses. Contact us or check the schedule to see specific offerings.

Our services are free to all ETSU students. While appointments are recommended, drop-ins are accommodated if tutors are available.
