
MR1246908 (94f:05020) 05B07**Gardner, Robert B. [Gardner, Robert Bentley]****A note on a class of Steiner triple systems. (English summary)***Ars Combin.* **36** (1993), 157–160.

Summary: “Steiner triple systems admitting automorphisms whose disjoint cyclic decompositions consist of two cycles are explored. We call such systems bicyclic. Several necessary conditions are given. Sufficient conditions are given when the length of the smaller cycle is 7.”
